What is the strongest aspect of the instructor's teaching in this course? Give specific example, if possible.

- She gives lots of examples before a project so we understand what we're doing and how to do it. She also makes it clear to us that Jeff has a resource page, which is very helpful.
- The class time was very organized and the goals for the assignments were made clear
- Knowledgeable
- She is able to make sure you understand and is also always open to opinions on what many would want to do or sometimes even listen to.
- Her wealth of knowledge. Jane knows her shit.
- She is very passionate and enthusiastic about the course material and teaching us. She was an absolute joy in class and I really enjoyed taking the course with her.
- She has a very deep and all-encompassing knowledge of the course content due to her background in the area which helped to provide a quality course.
- She made herself available and gave a lot of examples of what was expected of us.

What could the instructor do to improve his/her effectiveness? Again, please be as specific as possible.

- Keep choosing a variety of podcasts for projects and analysis homework, because I liked finding different things that appeal to me - some that I never would've known about if it wasn't for this class.
- It would have been good to have had just a bit more time to record for the audio package assignments
- Nothing, janes great.
- Honestly, I think she did a fantastic job, she was accommodating and understanding, I have no complaints.
- N/A
- She was pretty good all around.
