OPEN ENDED

What is the strongest aspect of the instructor's teaching in this course? Give specific example, if possible.

- Broad knowledge, very helpful, provided assistance outside of class. You could tell she had a strong passion for Journalism
- The passion she has for the subject was clear and made everything better. She was also always available for helping us and the feedback was timely.
- Jane has had many years of experience and she is current on the trends of today. She shows examples of great work that in being produced and plays it in class as an example to see what great journalism looks like.
- She is very experienced in creating audio stories. She always posts to D2L before class.
- Expertise in field
- Her knowledge and experience
- Gave great real life/ work force advice
- The combination of practical skills, theoretical analysis and listening to actual big name podcasts out there to both get familiar with the world of podcast and hear how successful producers produce.
- Jane is very knowledgeable on this topic and was extremely helpful to me throughout the semester. Listening to the difference between my first piece and last piece is crazy. I learned so much about audio production in this class because Jane is such a great resource!
- I really liked how involved Jane was with telling her love of audio storytelling and giving us many examples to help us understand what audio storytelling is.
- Provides great feedback. Cares about her students.
- Jane did very well introducing course material in the most efficient way possible with real world experience and outside content,

What could the instructor do to improve his/her effectiveness? Again, please be as specific as possible.

- She could improve her teaching skills. Jeff is always there to help us import materials. If she could teach us herself, we wouldn't have to waste his time. Also, we didn't go over music at all.
- More variety. I feel like we listened to a lot of stuff produced by the same people or types of people. There was little balance.
- nothing, great job jane!
- I feel like certain things with adobe audition were over-explained, such as how to import files and how to open audition. Also some things we missed that would be beneficial, like how to export projects and how to publish projects online directly.
- I thought this course and all the assignments we had were all very effective for this course.

Overall, what is your opinion of this course?

- I loved it! It wasn't part of my major but it was fun to be able to learn how to make podcasts
- I loved the course, it was exactly everything I wanted in a course.
- This course was a fun and effective way for students to produce their own stories. It was a great class to be free to use your skills to produce great stories.
- It is valuable to journalism majors and PR students, but I think we should've gone over how to publish them, where to publish them, and how to get listeners.
- Highly enjoyed class and instructor, would recommend for all JAMS students
- I thought it was good. It's a great chance to learn how to produce audio features
- this was an amazing class and i wish i could take it again! thanks for a great semester, Jane.
- Great course. One of my favorite JAMS courses.
- I really loved this class and I'm so glad I took it!
- I really liked this course. I was a fan of audio and podcasts before coming into this class and this class helped me better my audio editing skills and learn about podcasts and find new podcats to listen to.
- Great class, I highly recommend this class to everyone. Jane is an amazing professor who has a great passion for audio. I'm glad that i was able to be apart of this class, and excited to have hr as a professor again in the future.
- Loved it-wish there were more production courses like this at UWM within the JAMS department
